Landfill Regulations

Landfill regulations prohibit the following items or materials being disposed of in their facilities or require special handling for them:

- Whole Tires - except solid forklift tires
- Lead Acid Batteries
- White Goods/Appliances
- Yard Waste - unless disposed of in a separate load - cannot be mixed in with construction waste
- Liquids of Any Kind
- Hazardous Waste - as described in 40 CFR 258
- Asbestos In Any Form - unless handled and packaged separately according to NESHAP regulations with required North Carolina documentation and Green Day Waste manifests. Shingles, insulation, siding & old sheet flooring can contain Asbestos.
- Contaminated Soil
- Explosives
- Any Container of 5 Gallon Capacity or Greater - unless both ends are removed
- Volatile Chemicals
- Any Material with the Propensity to Produce a Foul Odor
- Fluorescent Fixtures - unless ballasts have been removed
- Fluorescent Bulbs/Tubes
- Any other material deemed unlawful as described in the North Carolina solid Waste Management Rules as amended.
